MANITOBA POPULATION ESTIMATES - July 1, 2008

	<u>July 08</u>	<u>July 07</u>	<u>Change</u>
<u>POPULATION</u>	1,207,959	1,193,514	up 14,445
<u>NET MIGRATION</u>	(July to June)	<u>2007/08</u>	<u>2006/07</u>
	<u>Interprovincial</u>	-503	-5,500
	<u>Total</u>	9,655	4,711

Manitoba's total population was estimated at 1,207,959 persons as of July 1, 2008, an increase of 14,445 persons, or 1.21%, from the July 1, 2007 total of 1,193,514.

Manitoba's net interprovincial migration loss totaled -503 persons for the census year ending June 30, 2008, compared to the net loss of -5,500 persons for the previous year.

Five out of ten provinces had net interprovincial migration losses in 2007/08. British Columbia (11,458), Alberta (10,010), and Saskatchewan (8,067) showed the largest gains. Ontario (-16,522) and Quebec (-12,399) reported the largest losses through interprovincial migration.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration gain of 9,655 persons in 2007/08, compared to the net gain of 4,711 persons in 2006/07.

Net international migration once again was a major contributor to population growth with Manitoba recording a net gain of 8,899 persons during the census year ending June 30, 2008. Since 1997/98 net international migration has increased nearly seven-fold. This increase has mainly been the result of immigration levels that have more than doubled since 2002/03. In the census year ending June 30, 2008 Manitoba gained 10,741 persons through immigration, compared to the gain of 4,902 persons in the 2002/03 census year.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 1971/72 onward. This MBS report incorporates all revisions.

Table 5 presents the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Table 1.
